

Panel Session: Antimicrobial Resistance and One Health

January 29, 2015 from 5:00—6:00 pm

One Health has been identified by the University as a Grand Challenge initiative to develop programs in education, research, and outreach.

One Health is the collaborative effort of multiple disciplines working locally, nationally, and globally to attain optimal health for the ecosystem*. It is a cultural and behavioral concept with socioeconomic elements and impact.

Currently, the One Health program on the TAMU campus has undergraduate, graduate, and professional educational programs, community and national level outreach programs, and research initiatives.

* a biological community of living organisms (humans, animals, plants, and microbes) and their physical environment interacting as a system.

The One Health Panel is open to all faculty, staff, students, and community members and will be held on January 29th from 5-6 pm at the Texas A&M Institute for Preclinical Studies Auditorium (TIPS).

Morgan Scott

*Professor, Dept. of Pathobiology
College of Veterinary Medicine & Biomedical
Sciences

*Director, Norman Borlaug Institute
Professor, Nutrition and Food Science
23rd President
Texas A&M University*

* This event will be recorded and added to the Texas A&M One Health website, <http://onehealth.tamu.edu/>.

Driving Directions:

- *If you are arriving via Highway 6, take the University Drive exit and proceed west on University Drive. The street becomes Raymond Stotzer Parkway and the entrance to TIPS is on the right at the intersection of Discovery Drive and Raymond Stotzer.*
- *If you are arriving via Highway 21, exit Highway 47 at the Riverside Campus. Continue on Highway 47 until it intersects with Raymond Stotzer Parkway (also Highway 60), turning left toward the main TAMU campus. The TIPS entrance is on the left at the intersection of Discovery Drive and Raymond Stotzer.*
